

AMAZING BRIDGES

There are many beautiful bridges in the world

There are many Types of Bridges Which Are Given Below

BRIDGES			
LONGEST	SMALLEST	TALLEST	OLDEST

Eiffel tower (France Paris) :

(The tower is 330 meters (1,083 ft) tall)

The Eiffel Tower is a wrought-iron lattice tower on the Champ de Mars in Paris, France. It is named after the engineer Gustave Eiffel, whose company designed and built the tower.

Locally nicknamed "La dame de fer" (French for "Iron Lady"), it was constructed from 1887 to 1889 as the centerpiece of the 1889 World's Fair. Although initially criticized by some of France's leading artists and intellectuals for its design, it has since become a global cultural icon of France and one of the most recognizable structures in the world. The Eiffel Tower is the most visited monument with an entrance fee in the world: 6.91 million people ascended it in 2015. It was designated a historical monument in 1964 and was named part of a UNESCO World Heritage Site ("Paris, Banks of the Seine") in 1991
