

AMAZING BRIDGES

There are many beautiful bridges in the world

There are many Types of Bridges Which Are Given Below

BRIDGES			
LONGEST	SMALLEST	TALLEST	OLDEST

Chenab Rail Bridge (Jammu Kashmir)

The Chenab Rail Bridge is a steel and concrete arch bridge between Bakkal and Kauri and just 42 km (about 26.1 mi) from main Reais town in the Reais district of Jammu and Kashmir, India. The bridge spans the Chenab River at a height of 359 m (1,178 ft) above the river, making it the world's highest rail bridge. In November 2017, the base supports were declared completed allowing for the start of the construction of the main arch. The bridge was fully completed and was inaugurated in August 2022.

In April 2021, the Chenab Rail Bridge's arch was completed, and the overall bridge was completed in August 2022. It is expected to open to rail traffic in December 2022.[2]

Key technical data of the bridge include:

Deck height (height above riverbed): 359 m (1,178 ft), (height above river surface): 322 m (1,056 ft)

Bridge length: 1,315 m (4,314 ft), including the 650 m (2,130 ft) long viaduct on the northern side

Arch span: 467 m (1,532 ft) [10]

Arch length: 480 m (1,570 ft) [11]

This makes the Chenab Rail Bridge:

The world's highest railway bridge

The bridge with the longest span in the 5 ft 6 in (1,676 mm) broad gauge railway network
