

AMAZING BRIDGES

There are many beautiful bridges in the world

There are many Types of Bridges Which Are Given Below

BRIDGES			
LONGEST	SMALLEST	TALLEST	OLDEST

Ping tang Bridge (China) :

The Ping tang Bridge is a bridge in Ping tang, Guizhou, China and carries the Ping tang Loudean Expressway over the deep Coada River valley. With a height of 332 meters (1,089 ft), it is the third-tallest bridge in the world. It was opened to traffic on 30 December 2019.

The bridge is a multi-span cable-stayed bridge with a length of 7,000 ft (2,100 m)

With a main tower that has a height of 332 meters (1,089 ft), the bridge is the third tallest in the world. The tallest tower is 15 meters (49 ft) shorter than France's Millau Viaduct, which has a similar structure to the Ping tang Bridge. The bridge is also among the 20 highest in the world with a road deck 310 meters (1,020 ft) above the river below. The bridge cost 1.5 billion yuan (about 215 million U.S. dollars) to build.
